 Send me a link to this course

We've designed our Bachelor of Nursing to prepare you for the diversity and complexities of 21st century nursing.

At Swinburne, you'll benefit from our strengths in technology and innovation. Your clinical skills will be developed safely using simulation technology and realistic case studies.

Speciality study areas will include high acuity nursing, mental health services, aged and palliative care, rural and Indigenous health care, and family, paediatrics and primary health care.

Small class sizes will provide you with individualised support and assessments will be approached with an authentic, real-world view – all to help you develop into a well-rounded professional.

All our bachelor degrees include a guaranteed [Work Integrated Learning](#) opportunity, which could be a [placement](#), [internship](#) or [industry-linked project](#). This degree includes a mandatory work placement as a professional accreditation requirement. You'll complete 800 clinical practicum hours in a variety of clinical settings. In Nursing Projects (NUR30007), you'll also have the opportunity to explore a student led project in collaboration with local and international industry partners.

You'll graduate as a registered nurse (RN) and be ready to pursue a career in a

variety of settings, including tertiary hospitals, aged care, rural, remote or community health care.

 Due to high interest and limited capacity, students will be unable to defer their place in this course.

i View the [Informed Choices statement](#), which provides information about the inherent requirements of nursing, specifically the essential physical and behavioural abilities needed to perform assessment tasks and professional placements in nursing and progress to a career in this field. This information is intended to assist you to choose whether you can successfully participate in and complete a course.

| Complex and Community Care * | NUR30009 | 12.5 |

Full-time study: 100 credit points/eight standard units of study per year

Part-time study: 50 credit points/four standard units of study per year

One credit point is equivalent to one hour of study per week per semester (including contact hours and private study)

See the [course planner](#) for an example degree structure

Course learning outcomes

Students who successfully complete this course will be able to:

- engage in critical inquiry-orientated healthcare activities as a beginning registered nurse, to provide care to individuals, families and groups from diverse backgrounds across the lifespan
- be highly literate in their use and management of information and evidence-based knowledge for greatest practice effect across a range of healthcare settings
- demonstrate leadership within inter-professional teams through the use of personal, intellectual and creative autonomy
- exhibit personal values and beliefs consistent with their role as responsible members of local, national and international and professional communities in a 21st Century healthcare workforce
- recognise and value communication as a tool for negotiation and creating new understandings, interacting with others and furthering their own learning
- engage effectively in the therapeutic care of individuals and the advancement of their discipline.

Career opportunities

Swinburne University of Technology offers exceptional nursing education, through innovative teaching and learning and through strong industry partnerships. Our graduates go on to work as nurses in a range of areas including primary health care, acute inpatient medical surgical, chronic disease management, mental health, child and family health, palliative care, community nursing, aged care, workplace safety, rural and Indigenous health and emergency medicine.

Professional recognition

The Australian Nursing and Midwifery Accreditation Council accredits the course. The Nursing and Midwifery Board of Australia (NMBA) approves the course to enable graduates to [apply for registration](#) as a Registered Nurse. This registration is managed through the Australian Health Practitioner Regulation Agency (AHPRA). The NMBA website sets out all of the [registration standards](#) that graduates must meet.

Fees

Students who participate in a six- or 12-month professional placement will be subject to an increase in total course fees.

How to enter this course

- Entry requirements, pathways, credit transfer and recognition of prior learning.

Entry requirements

2023 Minimum Entry ATAR: **65**

One of:

- Successful completion of the Victorian Certificate of Education (VCE) or its equivalent, such as an interstate or international Year 12 qualification.
- Completion or partial completion of an approved tertiary qualification (including Certificates, Diplomas, Advanced Diplomas, Associate Degrees and Degrees).

Course prerequisites

VCE Units 3 and 4: a minimum study score of 25 in any English (except EAL) or 30 in English as Alternate Language (EAL) or equivalent.

Other requirements

All enrolled students must maintain a current **Working with Children Check** (from the Appropriate State Authority) and a current **Police Check** throughout the duration of the course.

Evidence of a completed adult vaccination program is required before clinical placements are undertaken; Meeting the minimum entry requirements for the course does not guarantee offer of a place. See Admissions at Swinburne, for general information about admission process.

NDIS Worker Screening Check

Students enrolled in this course may be required to apply for and receive an acceptable National Disability Insurance Scheme (NDIS) Worker Screening Check prior to commencing placement with an NDIS provider. The relevant fee is the responsibility of the student.

Pathways

Pathways allow students to progress from one qualification to another where the first course is recognised as an entry requirement and/or provides advanced standing to the second.

Progress from this course to
Bachelor of Nursing

Diploma of Nursing

Maximum amount of credit available

8 units

This information should be used as a guide for those who have completed a course and are seeking credit into another course. For those yet to commence their course, during the time taken to complete, this information may change. Credit available may vary depending on the major selected within any given degree. Progression to professional degrees may be subject to additional criteria or academic performance.

Only students who have completed a Diploma of Nursing at a public TAFE or dual-sector institution, and who possess a graded transcript for their qualification, are eligible.

Learn more about [pathways](#).

Credit transfer

Credit is granted in recognition of previous study and/or experience and allows students to gain advanced standing towards their course.

Applicants are assessed on a case-by-case basis. Learn more about [credit](#).

Recognition of Prior Learning

Recognition of Prior Learning (RPL) allows students to gain credit (advanced standing) towards their course in recognition of skills and knowledge gained through work experience, life experience and/or formal training. Applicants are assessed on a case-by-case basis. Learn more about [RPL](#).

How to apply

Applications for Semester 1 for courses listing on the VTAC Guide are generally made through VTAC. Under certain circumstances, some students (e.g. Non-Year 12) may apply directly to Swinburne. Find out more about [how to apply](#).

Applications for entry into second year, which commences earlier in the year in HE Block 1, is specifically for students who have completed an approved Diploma of Nursing and will receive advanced standing. Applications for HE Block 1 should be made direct to Swinburne.

Note that, both first year and second year intakes for this course have a limited amount of places available.
